

IN THE CLAIMS:

1. (Currently Amended) A fence post assembly comprising:

~~a fence post;~~

a connector member for placement on a top end of ~~said a~~ fence post, said connector having a body with a top end and a bottom end, wherein said bottom end is adapted to engage ~~said a~~ fence post;

a lens member for placement on said top end of connector member, said lens member comprising a hollow body with a top end and a bottom end, wherein the hollow body includes sidewalls extending between said top and bottom ends to define an enclosed space, and wherein said sidewalls permit the passage of light there through and include a light diffusing means for dispersing light emanating from within the hollow body; ~~and~~

a top member having a first end for engaging said top end of the hollow body of said connector member; and

a solar collector supportably connected to said top member.
